

Position Title:

3D Laser Scanner / Field Measuring Technician

Reports To:

3D Scanning and Field Measuring Manager

Job Purpose:

The Primary function of this position is to travel to the job site to obtain specific measurements of building structures using 3D Laser Scanner and then providing the results to the Engineering segment. This position is designed for individuals interested in the construction industry who enjoy travel.

Responsibilities:

- Travel to job sites, arrive on time to the office or job site to be available for work or travel arrangements.
- Present yourself in a professional manner at all times while ensuring the job is completed to MillerClapperton standards.
- Provide accurate building measurements utilizing our 3D scanner and other measuring methods.
- Attend a project's Pre-Scan Meeting learning the expectation and information to complete a scan trip.
- Prepare neat, accurate, and easy to follow measurement documents for the engineering department.
- Attend and be the lead person of Post Scan meetings to present the findings of a job site visit.
- Promptly return calls, emails, and other correspondence that may originate from customers or our employees as required.

Requirements:

- Must be at least 18 with a High School diploma (or equivalent).
- Interact and communicate effectively (both written and oral) with in-house staff, as well as with customers.
- Be a good problem solver and make confident judgment decisions.
- Must possess the ability to manage stress and high-pressure situations.
- Computer knowledge is required.
- Must have a professional and confident attitude.
- Must have extreme attention to detail and be able to follow directions exactly.
- Must have a clean driving record and active license.

MillerClapperton

- A high degree of accuracy and exactness is extremely important in the performance of this job.
- Must be willing to undergo cross-training by working in other company segments, including but not limited to field operations and production departments.

Physical Demands:

- MUST be physically able to occupy and work on commercial job sites. Lifting, bending over, kneeling, and other physical activities are required for this position.
- Must not be afraid of heights: work on platforms, aerial lifts and personnel hoist required (training provided).
- Due to stringent scheduling overtime may be required to complete an assigned task.
- Evening and weekend work may be required depending on the needs of our clients and the particular project.
- Out of state travel by car or plane will be required.
- Exposure to typical construction work areas and job site terrain.
- On the job site training will be required.
